

College admission procedures involve researching schools, taking required tests, and submitting applications with transcripts and recommendations via online portals. Key steps include registering on college sites, filling forms, paying fees, and providing Academic Bank of Credits (ABC) IDs, mark sheets, and category certificates.

Key Components of the Admission Process:

- **Research and Prep:** Identify target colleges, review eligibility criteria (minimum marks/cut-offs), and note deadlines.
- **Application Submission:** Create an account on the college website, fill out the application form, and submit necessary documents.
- **Entrance Exams & Selection:** Many institutions require entrance exam scores (e.g., CUET, JEE) and conduct counseling sessions.
- **Documents Required:**
 - Class X & XII mark sheets/certificates.
 - Transfer/Migration/Character Certificate.
 - ABC ID (Academic Bank of Credits) and Aadhar Card.
 - Passport size photos and signature scans.
 - Category (SC/ST/OBC) or Domicile certificate, if applicable.
- **Finalization:** Selected candidates often participate in interviews or counseling, pay fees, and submit original documents for verification.
